Subject: The horsefield Emsworth

CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

I am contacting you regarding my complete opposition to building 90 homes on this site. It lies inside the chichester harbour national landscape and therefore the application should be refused as there are no exceptional circumstances for building there it would be illegal. If this went ahead then a precedent would be set elsewhere and you would run the risk of the inspector rejecting the local plan. This site needs protecting as the local area is already suffering due to the massive housing estate at Saxoncorner, new buiding at southbourne, nutbourne and bosham.
The road has become completely congested and us local residents suffer the daily impact and increasing dangers which over development has already created including the extra strain and stress on our local services e.g doctors surgery and primary school.

Perhaps you are unaware that green spaces are vital to preserve and support wildlife and is very important for peoples mental and physical health. Are you trying to contribute to poor health outcomes for local residents. We have not got a housing crisis - we have got a population crisis and it is about time local and national councils and governments dealt with the real issue which is illegal immigrants criminally entering this country and draining the economy and communities, it is about time councils showed some strength instead of inadequacy and failure. We should not be the victims of such incredulous proposals.

Yours sincerely

Tracy Thompson
