Public Register of Animal Licences

This register is updated quarterly. Whilst there is no legal requirement to publish a register of animal licences, licensees give their consent to have their information published when they apply for a licence.

Where the licensed premises is a dwelling, the Council will not publish the full address and instead publish the Ward in which the premises is located.

Any licensee may opt out of having their information shown on the public register by emailing EHealth@havant.gov.uk.
