Dear HBC,

We are writing to you regarding The Horsefield, site EM008A, which we wish to remain as a horsefield. We do not believe there are any exceptional circumstances to mean building ninety houses. Certainly to build such a large number of houses is definitely not in the public interest.

We want the land to be used in accordance with the National Planning exceptional circumstances test. The Council should be protecting the original use of this land. We want to see the horses stay where they belong.

Yours sincerely,
