Dear Planning Officer
I read with dismay more attempts to build on "The Horsefield" Site EM08a
I do not see any reason to build on this site as is certainly not in any way in the Public Interest.
May people enjoy the beautiful very rare feeling of unspoilt open spaces in this area.

The extra strain on more traffic tying to filter onto the A272 will cause more delays than we have already from the Saxon Estate
Quite apart from the pressure on our local GPs and schools

The Chichester Harbour National Landscape Commitment seems to be disregarded by this proposed development.
I urge you to protect our particular bit of this lovely coastline and refuse the permission on Site EM08a and not set a precedent in building on land so important to Emsworth and Havant.

Yours Sincerely
Judith Humphreys
