I object to Allocation 2 because I do not think the plan is effective in its current form. The Council's own Sustainability Appraisal says that improvements to sustainable transport are needed for this site to be acceptable. However, the wording of the allocation only asks the developer to "explore opportunities" for these improvements. In my view, that is far too vague and gives no guarantee that any of them will actually happen.

If these transport improvements are considered necessary for the development to be sustainable, they should be a firm requirement rather than something the developer is simply asked to consider. Without that commitment, I do not believe the site can be delivered in the way it was assessed, and I therefore consider the allocation unsound unless the wording is strengthened to make these improvements a clear requirement.

I object to this allocation because I do not believe there is sufficient evidence to show that the necessary wastewater capacity will be available. The information provided about improvements to the Thornham treatment works appears to relate to development contained within Chichester's adopted plan, rather than the additional housing proposed for Emsworth by Havant.

It is particularly concerning that the councils themselves acknowledge that providing a solution is not something within their direct control. If it cannot be demonstrated that the sewage generated by these new homes can be adequately treated during the plan period, I do not see how the proposed level of development can be considered deliverable. For this reason, I believe the plan is not effective and the allocation should not proceed unless adequate wastewater capacity can first be demonstrated.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.
You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
