

**TOWN & COUNTRY PLANNING (ENVIRONMENTAL IMPACT
ASSESSMENT) REGULATIONS 2011**

‘SCREENING OPINION’ (REG: 5 &7) (AS AMENDED)

Proposal **Installation of CCTV cameras and associated equipment**

at: **Household Waste Recycling Centre, Fishery Lane,
HAYLING ISLAND, PO11 9NR**

County Council Ref: APP/16/00805

Received 3 August 2016

Refer to footnote before assessing proposal

Is the development listed in Schedule 1? No

Is the development listed in Schedule 2? Yes

11 Other projects

(b) Installations for the disposal of waste (unless included in Schedule 1);

(i) The disposal is by incineration; or
(ii) the area of the development exceeds 0.5 hectare; or
(iii) the installation is to be sited within 100 metres of any controlled waters.

13 Changes and extensions

(b) Any change to or extension of a description listed in paragraphs 1 to 12 of column 1 of this table, where that development is already authorised, executed or in the process of being executed.

Either-
i) the development as changed or extended may have significant adverse effects on the environment;
or
ii) in relation to development of a description mentioned in column 1 of this table, the thresholds and criteria in the corresponding part of column 2 of this table applied to the change or extension are met or exceeded.

Is the development likely to have significant effects on the environment?

The application site is an existing household waste recycling centre facility located on Hayling Island. The proposal is for the installation of a CCTV security camera and associated equipment. The proposal does not include for any other changes to the existing permission for the site. The application lists under schedule 2 as it is within 100m of controlled waters, namely the boating lake which is designated as a Sites of Importance for Nature Conservation

(SINC). In turn, the boating lake empties into Chichester Harbour, which is a Sites of Special Scientific Interest (SSSI).

It is not considered that the proposed change would result in any additional impact on the environment by the site.

The proposed development **is not** an **EIA development** under the ***Town & Country Planning (Environmental Impact Assessment) Regulations 2011*** as although within Schedule 2 and within 100m of controlled water, the overall level of activity and range of waste operations at the site remains similar and so the proposals are not likely to have significant environmental effects.

Director of Economy, Transport & Environment
Date 16 August, 2016

*Note: An EIA development must **either**:
be within Schedule 1 **or**;
be within Schedule 2 within a 'sensitive area' **and/or** above thresholds/criteria
and/or 'likely to have significant environmental effects'.*
